

Journal of Plant Ecology

Contents

Volume 10 Number 5 October 2017

RESEARCH ARTICLES

- Projecting the distribution and abundance of Mediterranean tree species under climate change: a demographic approach 731
David García-Callejas, Roberto Molowny-Horas and Javier Retana
- Spatial variations in responses of vegetation autumn phenology to climate change on the Tibetan Plateau 744
Nan Cong, Miaogen Shen and Shilong Piao
- Stand structure and productivity of *Populus euphratica* along a gradient of groundwater distances at the Tarim River (NW China) 753
Frank M. Thomas, Michael Jeschke, Ximing Zhang and Petra Lang
- Species richness and density evaluation for plants with aggregated distributions: fixed vs. variable area methods 765
Rita de Cássia Quitete Portela, Alexandra dos Santos Pires, Maria Isabel Guedes Braz and Eduardo Arcoverde de Mattos
- Soil and altitude drive diversity and functioning of Brazilian *Páramos* (campo de altitude) 771
Andreza Viana Neri, Gladson Ramon Alves Borges, João Augusto Alves Meira-Neto, Luiz Fernando Silva Magnago, Ian Michael Trotter, Carlos Ernesto G. R. Schaefer and Stefan Porembski
- Root distribution of three dominant desert shrubs and their water uptake dynamics 780
Shiqin Xu, Xibin Ji, Bowen Jin and Jinglin Zhang
- Soil respiration and its partitioning in different components in tropical primary and secondary mountain rain forests in Hainan Island, China 791
Lai Jiang, Suhui Ma, Zhang Zhou, Tianli Zheng, Xingxing Jiang, Qiong Cai, Peng Li, Jianxiao Zhu, Yide Li and Jingyun Fang
- Soil fertilization does not alter plant architectural effects on arthropod communities 800
M. Noelia Barrios-Garcia, Mariano A. Rodriguez-Cabal, Jennifer A. Rudgers and Gregory M. Crutsinger
- Soil temperature modifies effects of soil biota on plant growth 808
Johannes Heinze, Sabine Gensch, Ewald Weber and Jasmin Joshi
- Phosphorus does not alleviate the negative effect of nitrogen enrichment on legume performance in an alpine grassland 822
Fei Ren, Weimin Song, Litong Chen, Zhaorong Mi, Zhenhua Zhang, Wenyan Zhu, Huakun Zhou, Guangmin Cao and Jin-Sheng He
- Negative legacy effects of rainfall and nitrogen amendment on leaf lifespan of steppe species 831
Hong-Wei Yu and Wei-Ming He
- Bedrock geology interacts with altitude in affecting leaf growth and foliar nutrient status of mountain vascular plants 839
Renato Gerdol, Roberta Marchesini and Paola Iacumin
- Wildfire and floral herbivory alter reproduction and pollinator mutualisms of *Yuccas* and *Yucca* moths 851
Andrew H. Lybbert and Samuel B. St. Clair
- Tree succession across a seasonally dry tropical forest and forest-savanna ecotone in northern Minas Gerais, Brazil 859
Polyanne A. Coelho, Paola Ferreira Santos, Eduardo de Paiva Paula, Deborah M. G. Apgaua, Bruno Gini Madeira, Gisele Cristina de Oliveira Menino, Yule Roberta Ferreira Nunes, Rubens M. Santos and David Y. P. Tng
- Master of one trade: *Arbutus unedo* relies on plasticity to persist under habitats differing in water availability 869
Xabier Santiso and Rubén Retuerto

On the cover: An autumn alpine meadow in Amdo County, north Tibet Autonomous Region, China. The flora is dominated by *Kobresia robusta* Maximowicz and *Kobresia pygmaea*, Cyperaceae. In the center of the picture is a Thermokarst pond. Photo taken by Dr. Xiaodong Wu.
